### REMINDER (on 1 page)

**Commissioner for Patents**

Sir:

I filed the application on December 08, 2003. For the past three years I have contacted the Examiner a few times to be sure that I have not missed any communication. I have been told that GAU is very busy with the applications and my application is in the line for examining. I perfectly realize that US PTO is extremely busy, but I believe that three years is a long enough term for my application. I believe that this my communication will not play negative role for the US PTO decisions/rejections related to my patent application. This is not a complain at all, because, again, I realize how patent examiners are busy doing their highest qualification job.

I greatly appreciate some response to my this communication.

Thank you very much.

Very respectfully,

Yelena V. Yufa
